

Certificate of Compliance

This is to certify that

**IABG mbH
Space Test Centre
Einsteinstraße 20
85521 Ottobrunn
Germany**

operates a Quality Management System found to comply with the requirements of

ECSS-Q-20-07A

applicable to the following facilities:

**Acoustic noise test facility
Vibration and shock test facilities
Thermal test and space simulation facilities
Electromagnetic compatibility and magnetic field simulation facilities
Modal survey facilities
Mass property measurement facilities
Clean and integration areas
Supporting laboratories (calibration laboratory and physics laboratory)**

This Certificate is subject to continued maintenance of the Quality Management System in accordance with the requirements of the above Standard. Any significant changes to the Quality Management System, facilities and other conditions that may affect quality have to be immediately notified to ESA.

This Certificate remains valid unless cancelled or suspended, provided that the test facilities under this Certificate remain satisfactorily in service and operated according to the certified Quality Management System.
